

Gate Buying Guide

Which gate should I buy?

Babygates
.com.au

A few features explained

- screw mount
 - requires holes drilled into the wall with plugs to support both sides of the gate
- pressure mount
 - pressure mounted rubber feet hold the gate against the walls
- auto close
 - Some gates are spring loaded to swing back and lock. Others are push close.
- extensions
 - separate gate sections that clip in to cover wider doorways
- two way opening
 - gate can open in either direction

How to choose the right gate

Step
1

How do you want to mount the gate? Screw in or pressure mount?

Brand	Screw in models	Pressure mount models
Lindam	Numi	Axis, Orto, Deco
Dreambaby	x	Chelsea

Step
2

What width do you need?

Brand	Gate minimum width	Maximum width with extensions
Lindam pressure mount	75cm	138cm
Lindam screw mount	68cm	101cm (no extensions)
Dreambaby pressure mount	71cm	308cm

Step
3

Do you need extra tall?

Most gates are 75cm tall. Dreambaby extra tall gates are 100cm.

Step
4

Which gate look suits your interior best?
